In the World of Finance and Trade

STEEL SHARES FURNISH MERGENTHALER STOCK FEATURE IN "STREET"

by Steady Buying.

afternoon a buying movement of violence set in that put it to 121, where it closed. Professionals forgot they had been disappointed at the earnings for the third

issues was begun. The result was a stock, series of new high records and the organization of several new pools to carry on campaigns. Conspicuous among the active shares today were American Loco-Brick motive, Westinghouse, Crucible and At-lantic, Gulf and West Indies, Trading gained in volume and confidence to the very close of the market and final prices in most issues were the best of the day.

What happened in American Locomotive Rallway Springs, Baldwin, Car Foundry and Pressed Steel Car was surprising chiefly because of the delay. American Locomotive in particular has been in strong position for months. Not only is it making handsome profits from war material but it is getting all the orders for Locomotives it can possibly fill. In addition to this there is the assurance, as the result of histories. the result of litigation begun by Isaac M. Cate that the profits will go to the

Accumulation of Great Northern Ore is monest things in nature.

Copper quotations were up a 1-4 of a

The Safest Investments

Are those that do not fluctuate during dis-turbed conditions of the money or stock markets. First deed of trust notes (first mortgages), well secured on real estate in the District of Columbia, constitute "gift-edge" investments, and do not depend upon the linancial responsibility of individuals or corporations for their stability. We can supply such investments in amounts from \$000 upward. Send for booklet, "Concerning Loans and Investments."

Swartzell, Rheem & Hensey Co.,

727 Fifteenth Street Northwest.

HITS HIGHER LEVEL

Opening Heavy, Stock Is Forced Up Price Advances to 164 and 1641/8. Local Brick Company Reorganizing.

(By the International News Service.)

New York, Nov. 1.—Although some specialists made longer net gains today than United States Steel, the shares of the biggest corporation in the world were the feature of the day. The stock opened rather heavy, but buying was confident from the beginning. Late in the afternoon a buying movement of violence of importance.

Mergenthaler Petition Grows.

appointed at the earnings for the third quarter. What they remembered was that the corporation is earning about all its interests, the petition being circulated by local Mergenthaler stockholding extra is really a 9 per cent dividend payer.

Steel set the pace for the day. Wall Street was uncertain what to do until the heavy buying of that stock was observed. Then confident buying of many fully 40,000 shares of the corporation's issues was begun. The result was a stock.

Brick Company Reorganizing.

Reorganization of the New Washington Reorganization of the New Washington Brick Company is under way, the corporation being in default of interest on the 6 per cent bonds since November, 1912, and a general debtor to the amount of \$65,000 plus interest.

The reorganization committee is composed of William V. Cox, J. C. Heald, and E. L. White, The committee has urged bondholders to deposit bonds with the trustee, the American Security and

the trustee, the American Security and Trust Company. Already \$201,000 worth of bonds have been deposited. Holders of the \$29,000 bonds not deposited will have until November 15 in which to join the reorganization plan.

The committee proposes a compromise

with the creditors, who are in litigation for their claims, on the payment of \$8,000 covering claims of \$33,000. This arrangegoing on for good accounts. There is no danger, as reported, that the iron the property of the corporation and the ore of the country will be exhausted for iron and copper ore seem to be the company then would be organized.

Crucible Steel Seeks Proxies.

An active canvas is being made by the anagement of Crucible Steel for proxies o be used at the annual meeting of the tockholders on November 17. Interests stockholders on November 17. Interests has not passed into new hands but admit

tons for the corresponding month last

Uneasiness over the submarine situation doubtless
creased the tendency to take profits and prices

Uncasiness over the submarine situation doubtless increased the tendency to take profits and prices broke sharply during the middle of the morning.

A ralls from 18.56 to 19.16 for January was followed by renewed irregularity around midday. Reports that themest, Curtis & Co., of Chicago, estimated the crop at onts 19.456.000 bales, and Wash instead advices indicating that the administration would not immediately take up the Marina affair, helped the advance, which, however, met a renewal of heavy liquidation or profit-taking.

A wave of December liquidation led to local and Wall Street pressure against later positions in the early affernoon.

Heavy Western and Wall Street selling, the former considered a reflection of weakness in whast, caused a violent break in the last hour, prices dropping to a ferd more than half a cent below the opening figures. Spot market advices were less encouraging. Covering failed to check the decline here, and the close was casy at a net loss of 21 to 44 points.

Port receipts for the day were 69.418 bales. New
